

Nguyen Minh Nghia

Intern data engineer

☎ 0392458404 ✉ nghianm1103@gmail.com 🔗 <https://github.com/minhnghia1103> 📍 Hai Bà Trưng, Hà Nội

SUMMARY

I want to learn and absorb new knowledge to become a data engineer

EDUCATION

Studying at school: Hanoi University of Science and Technology 2020 - 2025

Computer Engineering

SKILLS & TOOLS

SQL | PYTHON

Google Cloud Platform: Google Cloud Storage, BigQuery, Google Compute Engine, Looker Studio

Distributed system: Hadoop, Spark (PySpark), Kafka

ETL/ELT | Data Pipelines | Data Visualization | Data Transform | Data Modeling | Database Normalization

TOOL: MAGE AI, Data Build Tool (DBT), Terraform, Docker, Git

PERSONAL PROJECT

TIKI_BOOK | https://github.com/minhnghia1103/project_de

- Crawl data about book information on Tiki
- Design and create ETL and ELT pipelines using MageAI to process and save data into data lake(GCS) and data warehouse(BigQuery)
- Tranform data using PySpark (GCS) and DBT (BigQuery)
- Build Star Schema data modeling: fact table and dim tables
- Visualization and dashboard
